DATE: November 26, 196[illegible]

SA's JAMES W. SIBERT and
FRANCIS X. O'NEILL, JR.

RE:

ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

Following arrival at the Naval Medical Center and preparation of the President's body for inspection and autopsy, to be performed by Dr. HUMES, Chief Pathologist and Commander, United States Navy, Admiral BERKLEY, the President's personal physician, advised that Mrs. KENNEDY had granted permission for a limited autopsy and he questioned any feasibility for a complete autopsy to obtain the bullet which had entered the President's back.

At this point, it will be noted Dr. HUMES, a [illegible] physician conducting the autopsy, stated it was his opinion that the bullet was still in the President's body and could only be extracted through a complete autopsy, which he proposed to do.

Special Agent ROY KELLERMAN, Secret Service, in conference with Special Agents SIBERT and O'NEILL, from an investigative and prosecutive standpoint, advised Admiral BERKLEY that it was felt the bullet should be located.

At this point, Admiral C. B. GALLOWAY, Commanding Officer of the National Naval Medical Center, Bethesda, Maryland, told Commander HUMES to perform a complete autopsy.

ENCLOSURE

This seems a bit odd because it doesn't appear to be the first page of their well-knows report and does not seem to be complete. Maybe Mark remembers better than I if this page had been disclosed earlier. HW 3/21/83
